## Community Needs Assessment

### Maximizing Community Participation

Nearly 1,700 members of the Greater Lawrence community participated in the GLCAC Community Needs Assessment between December 2016 and April 2017. Community input is critical to planning for and providing the best programs and services.

### Responding to Community Needs

The community surveys, along with analysis of other data and statistics, resulted in a core list of concerns and issues that affect Greater Lawrence families. GLCAC has placed priority on the topics the community highlighted as most urgent.

- Immigration Services
- Safe and Affordable Housing
- Adult Education
- Job Opportunities

### Taking Action that Supports Achievement

Over the next 3 years, GLCAC will expand our housing program, increase the Immigration Services program's offerings and introduce bundled adult education, ESOL, job training and employment support. GLCAC is committed to our Greater Lawrence communities and the families who live, learn and work here.
